

Tomago EIS Peters comments

I am the owner of a property that will be impacted adversely by this project.

M1 Pacific Motorway extension to Raymond terrace

My land is 1839 Pacific Highway Tomago NSW 2322 Australia. Lot2 DP1038663, EIS identification Pro ID 15, facing Pacific Highway with access opposite the intersection with Tomago Road.

The proposed Operational footprint includes resumption of a portion of my land that would prevent road access to my property.

EIS Chapter 14, Figure 14.6 shows in unique full colour the yellow section of my land proposed to be resumed, leaving me with no road access.

The portion of my land adjacent to Pacific Highway is shown on figure EIS Chapter 5, Figure 5-25 as required for construction but is not required for the Road Corridor.

The value of my property will be significantly impacted if I do not retain title to roadway access.

I request reassessment of the Operational footprint boundary and including the vicinity of the intersection of the Tomago Road.
