Narginda Singh – Gunlake Quarry Continuation Project  
Planning and Assessment  
Department of Planning, Industry and Environment  
Locked Bag 5022  
Parramatta NSW 2124

Dear Narginda

**Gunlake Quarry Continuation Project**

I refer to the above project and as a local family business operating in the Marulan area for 15 years I would like to express our support for Gunlake with this operation.

We have been dealing with Gunlake since the initial planning and setting up of the quarry to the present day operations as it now stands.

We have seen Gunlake deal with other local businesses like ourselves in all sorts of industries throughout their growth and feel this is a positive progression for the town and surrounding area.

We look forward to continuing operations with Gunlake for many years to come as we have done over the last ten years and trust they will continue to support local businesses and go from strength to strength.

It has been great to see a family business such as Gunlake progress and hope this will continue for years to come.

During this time we have seen Gunlake employ many local people and it has been a great source of income to the town and surrounding areas. Gunlake continue with

their Apprenticeship Program providing employment and training to young people leaving school and can enter the local workforce without having to relocate or travel long distances.

Gunlake are great supporters of functions/events in the local area and provide invaluable assistance and funds on these occasions. They provide a positive presence in the town while working to conditions and rules for their quarry operations and transport of their quarry product. Without their operation in Marulan small businesses like ourselves would be disadvantaged and many people either employed directly or indirectly would have to travel great distances for their employment and training.

We wish them well for their future expansion and continuing our working relationship with them. Gunlake has always operated in a professional manner and it is great to see an Australian family business progressing.

Yours faithfully

Adam Hale
