Mining Global, 31 July 2019 reported:

"Newcrest's latest quarterly reports reveals the miner has strengthened Cadia's position as Australia's leading gold producer. Gold production in the June 2019 quarter was 6% higher than the prior quarter. Cadia achieved a record annualised mill throughput rate of 31.7 million tonnes per annum (Mtpa) for the quarter."

Newcrest Managing Director and Chief Executive Officer, Sandeep Biswas, commented:

"Newcrest had a strong fourth quarter enabling us to meet our Group production and cost guidance. Cadia delivered a quarterly and annual gold production record, exceeding the top end of its production guidance range."
