

Jack Tanks

"GLEN ROY"

Wellington Rd,

Parkes 2870

To Whom it MAY CONCERN.

I Jack Tanks being a landholder in the Parkes district for over 40 years am firmly against the idea of people taking rich environmental land for the purpose of a solar farm.

It would be good if you took into consideration the harm you would be doing to the landholders & farming in the surrounding districts. As the Parkes district is known for being a high productive area for both crops & wool.

Further more having a solar farm in your area devalues some of our prime farming & grazing land around the area.

Yours sincerely
J Tanks.

Jack Tanks.
