| ANNE Feuerherdt | Culcairn, Australia | 2019-05-02 | "This Solar Farm will devalue farming land nearby.It seems to have been fast tracked with little known about it by people living nearby.Solar Farms SHOULD NOT be placed on land that produces produce for Australia.Solar farm will effect Global Warming in the area." |
| ANNE Feuerherdt | Culcairn, Australia | 2019-05-02 | "WE live in the area and this is not a suitable project for this area." |
| Mandy McHugh | Australia | 2019-05-03 | "This impacts local business and farms that I frequent. Do we really know the impact on the people and environment around this proposed solar farm given the size of the farm that they are planning?" |
| Craig Wenke | Walla Walla, Australia | 2019-05-03 | "I wouldn't want it next door to me" |
| Patricia Lieschke | Australia | 2019-05-03 | "Dont agree" |
| Jim Parrett | Australia | 2019-05-03 | "This is not the area for renewables, there is a multitude of sites available that do not impact on prime agricultural land or areas of closer settlement. The attraction for renewable companies is the next to zero transmission costs and this should not be the driver for their placement here" |
| Felicity Hynes | Australia | 2019-05-03 | "It's unfair not to respect the farmers and the negative impact this proposal will have on their families, business and lifestyle." |
| Adrian Feuerherdt | Culcairn, Australia | 2019-05-03 | "Not reasonable to use productive agricultural land for the proposed solar plant. Better suited to more marginal country" |
| Rebekah Lubke | Wagga Wagga, Australia | 2019-05-03 | "It's inappropriate for this to be built on fertile farming land." |
| Amy Faulkner | Australia | 2019-05-03 | "To stop farming out our perfecting beautiful farming land to other countries!" |
| Joel Feuerherdt | Australia | 2019-05-03 | "Impact on neighbouring farmlands and impact with no consultation on generational farmers" |
| BrielLa Hynes | Australia | 2019-05-03 | "It's across from my uncles farm and no one wants that thanks" |
| Bianca Schultz | Australia | 2019-05-03 | "I object to this solar farm being built 70 meters from my front door!!!" |
| Michelle Ivers | Homebush, Australia | 2019-05-03 | "Foreign use of fertile farming land!" |

| Luke Merriman | Melbourne, Australia | 2019-05-03 | "THIS CAN'T HAPPEN!!!" |
| Jean McDonald | Australia | 2019-05-03 | "I support renewable energy generation but oppose the use of prime agricultural land for that purpose. Allocating this particular area simply for solar energy production alone is short-sighted. To feed a growing world population in a time of climate upheaval, our best agricultural land will need to be earmarked for that use and protected from other activities that can be carried out elsewhere. Food producers will need to be as efficient and innovative as possible. And it won't help them, or us, if they have to farm land that is unsuitable. Solar panels should be mandatory on buildings, while major solar installations need to be placed where food production is impossible - on land found to be contaminated by former industrial uses, on former mining sites, over large bodies of water, etc. We will need to protect valuable farm land with zoning and by rating landowners according to land useage so there are advantages for farmers who continue to produce food. We should avoid trying to solve one problem by creatin" |
| Richelle McGavin | Australia | 2019-05-03 | "For family, farming, community and country!" |
| Kate Lewis | Australia | 2019-05-03 | "It doesn't seem like a good fit for the community" |
| Leah Campbell | Toukley, Australia | 2019-05-03 | "The problem is this is not the only one solar development going in the Greater Hume Shire" |
| Penelope Collis | Australia | 2019-05-03 | "There is more appropriate land that this project should be based on." |
| Mikaela McIndoe | Castle Hill, Australia | 2019-05-03 | "I don't want it near my home" |
| Todd McNamara | Jingellic, Australia | 2019-05-03 | "I agree" |
| barb beattie | Australia | 2019-05-03 | "Solar farms shouldnt be built on productive agricultural land.." |
| Diana Edgar | Yuendumu, Australia | 2019-05-03 | "Go somewhere where it will not impact local people like this would!!" |
| Ryan Ballentine | Brocklesby, Australia | 2019-05-03 | "Because I hate the idea of foreign investment and ownership" |
| Robert Clancy | Wodonga, Australia | 2019-05-03 | "I don't want to generations of Australian farmer's kicked off their land by foreigners" |
| sharon plunkett | Australia | 2019-05-03 | "Absolute waste of our great resources again..." |
| Janice Driscoll | Yerong Creek, Australia | 2019-05-03 | "Why build on fertile, productive land? Build it in the desert." |

| maree hill | Uranquinty, Australia | 2019-05-03 | "You can find a much less productive area to impact! Great idea - wrong location!" |
| Kelvin Rossely | Australia | 2019-05-03 | "I spent every summer with family up at Culcairn and don't want to see development like this in the area" |
| Zack Crowe | Melbourne, Australia | 2019-05-03 | "Someone said to because it'll help idk lol" |
| Stephanie Formaggio | Australia | 2019-05-03 | "I agree that this should not be built!!!" |
| Waltraud Boon | Sale, Australia | 2019-05-03 | "It Is good farming land" |
| Craig Mckenzie | Australia | 2019-05-03 | "I'm against foreign ownership of Australian farmland full stop. It should only every be purchased as leasehold never freehold." |
| Andrea Dunstan | Albury, Australia | 2019-05-03 | "Send them out to the desert 💎" |
| Tierre McCormack | Australia | 2019-05-03 | "This is not right" |
| Angela Frohling | Sydney, Australia | 2019-05-03 | "The land is very productive, stick them out in the desert where they belong." |
| Sam Schilg | Australia | 2019-05-03 | "Large scale solar power should not take place on prime agricultural land!!! How are farmers going to feed the world ?" |
| Daniel Hodgkin | Mitta Mitta, Australia | 2019-05-03 | "Daniel Hodgkin" |
| Adrian Sommerfeld | Australia | 2019-05-03 | "It's Australian farm land and there is more places better to have solar energy development." |
| Cassandra Jacob | Walla Walla, Australia | 2019-05-03 | "We live in the area and do not want these solar farms taking up prime Agricultural land" |
| Sarah Peters | Australia | 2019-05-04 | "I don't want to see this beautiful land full of crap" |
| Tammy Moran | wodonga, Australia | 2019-05-04 | "It's not right" |
| Ken Brunker | Sanctuary Point NSW, Australia | 2019-05-04 | "Our rural landscape is being slowly eroded by developments totally alien to the existing environment and provide no benefit to the local population." |
| Nicole Naughton | Australia | 2019-05-04 | "We need the land for farming." |
| Kathy Nimmo | Australia | 2019-05-04 | "This is ludicrous! Australia says NO!!" |
| Belinda Burley | Australia | 2019-05-04 | "Supporting our Aussie Farmers" |
| Amanda Wessel | Australia | 2019-05-04 | "To save the lives and environment of our Australian families." |

| Lisa Virgin | Secret Harbour, Western Australia, Australia | 2019-05-04 | "Somewhere else please we are running out of fertile land for farming as it is" |
| Debra Brown | Australia | 2019-05-05 | "This is so wrong.....on good farming land isn't the place to put it.....why Is a Japanese company doing th is in Australia anyway" |
| Rebecca Moore | Australia | 2019-05-05 | "Don't agree thay should be there" |
| Charissa Code | Culcairn, Australia | 2019-05-05 | "Not in prime agricultural land that will gravely affect tourism, residents, agriculture and ecolife. If they are serious about renewable energy and not their own political agenda, high transmission powerlines should be built near the dessert and have these solar panels built there.... In the desert! Another case of local farmers and residents paying the price for politicians to get the votes." |
| Charissa Code | Culcairn, Australia | 2019-05-05 | "Guys, please don't forget to complete the community feedback form and email it to them for your petition to count. My reason is the same as others'...Not in prime agricultural land that will gravely affect tourism, residents, agriculture and ecolife. If they are serious about renewable energy and not their own political agenda, high transmission powerlines should be built near the desert and have these solar panels built there.... In the desert! Another case of local farmers and residents paying the price for politicians to get the votes." |
| Charissa Code | Culcairn, Australia | 2019-05-05 | "Guys, please don't forget to email back the completed community feedback form to make your petition really count. My reason for signing is the same as others'...Not in prime agricultural land that will gravely affect tourism, residents, agriculture and ecolife. If they are serious about renewable energy and not their own political agenda, high transmission powerlines should be built near the desert and have these solar panels built there.... In the desert! Another case of local farmers and residents paying the price for politicians to get the votes" |
| Nicole Naughton | Australia | 2019-05-05 | "We need the land for farming to supply food for our community" |
| Mark Knight | Australia | 2019-05-06 | "This is Sacred Land to my family - hard assed blood and guts farmers for over 150 yrs ; there's ya first hint - my family will not surrender the land we have fought with - toiled with ; gone hungry and gone without - many better places you can place a solar farm - can think of one right now come to think of it ." |
| Mark Knight | Australia | 2019-05-06 | "Sacred Land to my family name Yacobi (Son of Jacob) we have fought all that this harsh country has offered up from bushfires to floods - drought alongside many others for longer than most could imagine ; well since the beginning - that sacred soil runs through my blood and through my |

| | | | heart and soul and i expect everyone else in the district - i do not care who or where the company originates - keep away from our district !" |
| Sue Finch | Australia | 2019-05-06 | "Don't spoil a beautiful place" |
| P. Code | Culcairn, Australia | 2019-05-06 | "Putting thousands of solar panels on these sites is not an appropriate use of rich farm lands. Also the natural beauty of the area will be destroyed, place these solar plants out on the desert plains at Hay on the transmission line there." |
| Dianne Harvey | Australia | 2019-05-06 | "Because climate change is a hoax, plus taking to much land from our native animals" |
| jamie makeham | Australia | 2019-05-07 | "Climate change and global warming what ever you want to call it is a scam nothing more!" |
| Steven Gosch | Coffs Harbour, Australia | 2019-05-08 | "In outback Australia, there are many areas that are completely arid. Why not build solar farms there, instead of compromising the little fertile farmland that we have left?" |
