

NSW Cricket Olympic Park Development: Application number SSD-10354

To whom it may concern,

The Blind Cricket NSW is delighted to support the new NSW Cricket Centre being proposed for Olympic Park.

We aim to encourage children and adults with vision impairment to develop healthy and active lifestyles.

The more facilities we have to encourage children vision impairment to play sport the more beneficial it will be to our community as a whole.

This new cricket facility offers an exciting opportunity for all cricketers, regardless of ability to be able to follow their dreams.

It will compliment playing outdoor matches with modern indoor facilities which can be used in all weather and after hours.

They may also have the opportunity to train with and be coached by elite male and female players, improving their skills and offering a greater attachment to sport. It would be used the Blind cricketers for training for the National Cricket Inclusion Championships.

Blind Cricket NSW believes this development will have a beneficial impact on many of our young people and offer an elite and community centre to develop their skills.
