**RE: Glendell Coal Continued Operations Project**

Dear Sir/Madam,

We wish for the following submission to be considered in support of the Glendell Coal Continued Operations Project.

Strike Force Services has serviced the local area for almost 18 years, in this time we have always used a local workforce to service all our clients with over 200 team members in the huntervalley alone and approximately 13 who are directly involved with Glendell mine.

Our team consist of cleaning and facilities management operations who depend on the Mine, they are also the same people who contribute to the economic function in the local community. A flow on to local suppliers and sponsor ship to local sporting events which we can provide from the jobs created by the mine.

Living and working in the local community, we see the benefits the mine has impacted. Working within a non-mining role we see first-hand how diligent and Environmentally focused the mine is.

We strongly support the application to continue the Glendell Coal mine and look forward to a successful outcome for the mine, and the local community.

If you would like any further information regarding the above, please do not hesitate to contact us at any time.

Kind Regards,

Jason Schutz
