

The Secretary
NSW Department of Planning, Industry and Environment

31 January 2020

ATTENTION: Patrick Copas

Dear Sir or Madam

I refer to the Department's below email of 3 December 2019 regarding the request for Updated Planning Secretary's Environmental Assessment Requirements (SEARs) for State Significant Development SSD-10330 Roberts Road Data Centre at 17 Roberts Road, Eastern Creek (Lot 2 DP 1159804). Submissions need to be made to the Department by 31 January 2020.

Endeavour Energy has noted that the submission it made to the original request for SEARs State Significant Development for SSD-10330 received in June 2019 is included in page 18 of the Agency Responses.

As the update / amendment of the SEARs relates to 'the partial construction of Building E3 (up to a height of 15 metres) and associated site preparation works have been removed from the scope of the proposal' the recommendations and comments previously provided by Endeavour Energy remain valid.

Endeavour Energy's Asset Planning & Performance Branch has provided the following update on the provision of electricity supply to the proposed development:

Asset Planning & Performance Branch have received and processed the application for connection of load to this development and provided method of supply for this customer.

This is a two stage development: an initial 11 kilovolt (kV) supply application UIL5583; and a final 132 kV supply application UCL10121.

The two existing switching stations no.s 29057 and 29058 currently connect to this customer will also be used for the first stage 11 kV supply.

The two cables on the southern side of the road, will be cut and redirected to an additional third switching station for this same development.

As such, Endeavour Energy's Network Connections Branch are managing the conditions of supply with the proponent and their Accredited Service Provider (ASP). However the applicant will need to contact Endeavour Energy's Network Connections Branch (via Head Office enquiries on telephone: 133 718 or (02) 9853 6666 from 8am - 5:30pm) if this or any further updates or modifications:

- Includes any contestable works projects that are outside of the existing approved / certified works.

- Results in an electricity load that is outside of the existing Supply / Connection Offer requiring the incorporation of the additional load for consideration. This is due to load being based on a desktop assessment using an After Diversity Maximum Demand (ADMD) where demand is aggregated over a large number of customers providing an ADMD for the site / per lot. Depending on the actual development proposed for the site, the ADMD provided may not be sufficient.

Subject to and based on the foregoing Endeavour Energy has no objection to the modification.

Could you please pass on a copy of this submission to the applicant? Should you wish to discuss this matter, or have any questions, please do not hesitate to contact me or the contacts identified above and in Endeavour Energy's previous submission in relation to the various matters. Due to the high number of development application / planning proposal notifications submitted to Endeavour Energy, to ensure a response contact by email to property.development@endeavourenergy.com.au is preferred.

Yours faithfully

Cornelis Duba

Subject: Notice of Exhibition – Roberts Road Data Centre (SSD-10330)

Dear Sir/Madam

The Department of Planning, Industry and Environment has received an Environmental Impact Statement (EIS) for the Roberts Road Data Centre (SSD-10330).

The EIS will be publicly exhibited from 11/12/2019 to 31/01/2020.

The EIS can be viewed on the Department's Major Projects site at <https://www.planningportal.nsw.gov.au/major-projects/project/12551> from 11/12/19. If you wish to view the documents prior to this date, you will need to register an account on the Major Projects site. A User Guide is attached for your reference.

The Department invites you to advise on the proposal, including advice on recommended conditions by the due date.

If you have any enquiries, please contact Patrick Copas on (02) 9274 6273 or patrick.copas@planning.nsw.gov.au.

Regards

Jess Fountain
DA Coordinator
